SANLORENZO SX88 BLUEZONE

2024

A new horizon starts here.

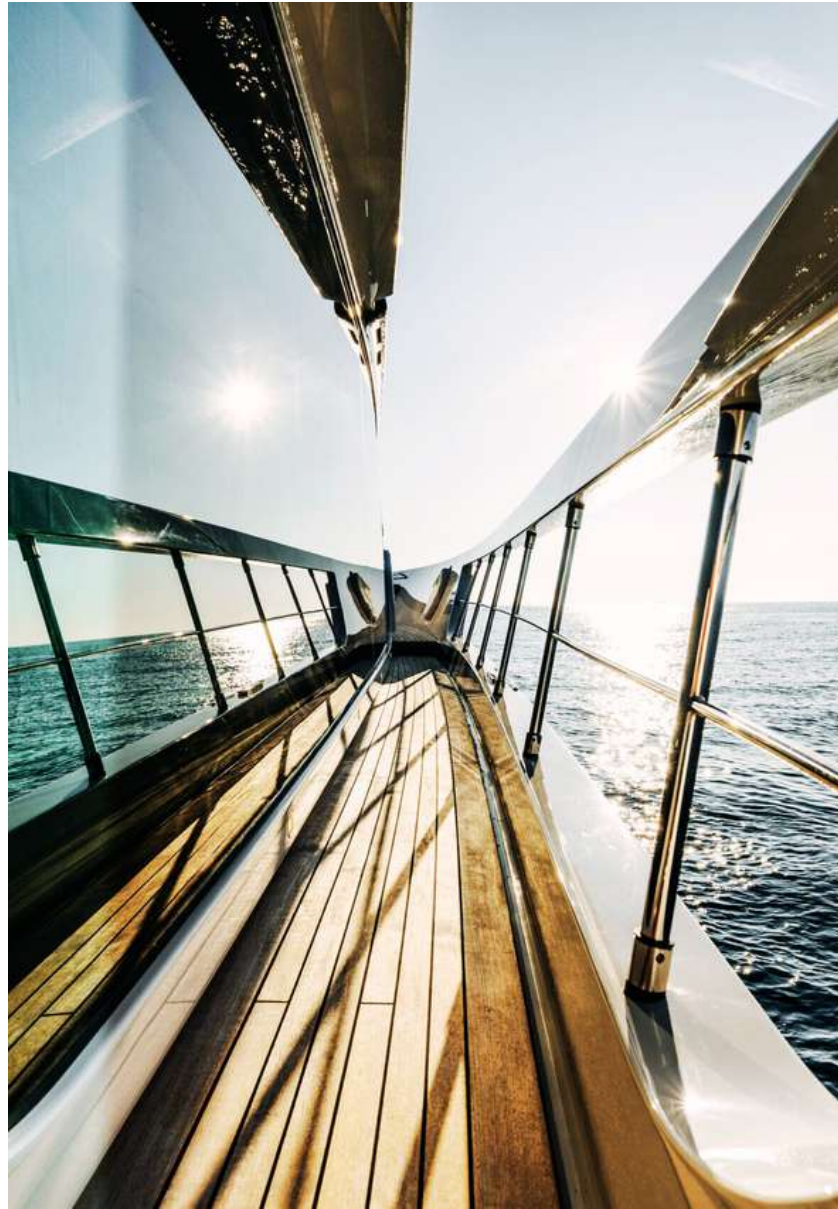

LIVE THE SEA WITH M/Y BLUEZONE

Sanlorenzo SX88 — contemporary crossover. Effortless living.

Delivered in 2024 and privately used for just half a season, BLUEZONE embodies Sanlorenzo's vision of seamless indoor-outdoor freedom.

Her expansive beach club, luminous main deck and sky-lounge flybridge with retractable roof create a pure connection with the sea. Powered by triple Volvo IPS and equipped with stabilizers, she offers agile performance and refined Italian elegance in every detail.

INTRODUCING M/Y BLUEZONE

A Modern Icon of Crossover Living

Designed by Zuccon International Project, M/Y BLUEZONE reimagines life at the water's edge: a seamless flow from the teak beach area to generous exterior lounges, then into luminous interiors wrapped by full-height glazing.

The main deck's easy circulation and convenient dayhead enhance life on board for family and guests, while the flybridge — with its opening windows and retractable roof — shifts effortlessly from sheltered salon to open-air terrace at sea.

Beneath the design lies quiet confidence: GRP construction on a deep-V hull, triple Volvo D13 IPS for agile handling, electric zero-speed stabilizers for calm comfort, and a specification upgraded for real cruising — twin generators, watermaker, premium A/V and a top-tier Raymarine navigation suite.

Lightly used, meticulously finished, and conceived for versatile Mediterranean days, BLUEZONE is as functional as it is unmistakably Sanlorenzo.

KEY FEATURES

★ **Spacious & Elegant Cabins**

Four ensuite cabins, including a full-beam master suite, offer refined comfort for up to 8 guests. Natural light, panoramic glazing and a dedicated dayhead on the main deck enhance life on board.

★ **Expansive Outdoor Living**

A vast teak beach area, luminous main deck and versatile flybridge with opening windows and retractable roof create seamless indoor-outdoor spaces, perfect for relaxation or entertaining.

★ **Performance & Confidence**

Triple Volvo IPS engines deliver smooth, agile handling, complemented by electric stabilizers for comfort at anchor and underway. Twin generators, watermaker and Raymarine navigation suite ensure real cruising capability.

★ **Design & Innovation**

Conceived by Zuccon International Project, M/Y BLUEZONE epitomizes Sanlorenzo's crossover philosophy — combining contemporary lines, functional solutions and meticulous detailing that reflect unmistakable Italian style.
